

# VACMASTER® PRO275

The **VacMaster® PRO275** combines advanced technology and a sleek compact design. The easy to use control panel enables a number of functions to be performed at the touch of a button. With the **PRO275**, users are able to vacuum seal food items to keep them fresh up to 5x longer than traditional storage methods. Seal delicate items with the “pulse vacuum” function. The unique slanted layout, makes loading bags easy. The **PRO275** accepts bags and rolls up to 12” wide and works with all **VacMaster®** accessories. Revolutionize your kitchen at an affordable price with the **PRO275**.
